FEATURED ENGINEERING PROJECTS

MERN Blog CMS Platform | React, Node.js, Express, MongoDB, Tailwind CSS, JWT

- Engineered a full-featured content management platform with secure JWT authentication, role ACL, and rich markdown editing.
- Implemented responsive UI with dynamic state handling, comment threads, search filtering, and image asset pipeline.

EthioTemhret Academic LMS | Laravel, Blade, MySQL, JavaScript, Bootstrap

- Built enterprise school management platform supporting student enrollment, teacher gradebooks, and attendance tracking.
- Automated end-of-term PDF report card generation and relational database query optimization across 10,000+ records.

Smart Equb & Financial Platform | Angular, ASP.NET Core .NET 10, SQL Server, EF Core

- Developed automated contribution cycles, round payouts, member verification workflows, and audit trails.
- Designed high-throughput REST APIs with transactional consistency and reactive Angular Signals dashboard.

WORK EXPERIENCE

Junior Full-Stack Developer | Freelance & Software Projects [2024 - Present]

- Designed and deployed full-stack web applications for clients utilizing Angular, React, ASP.NET Core, and Node.js.
- Architected database schemas and optimized SQL queries, reducing API response latencies by over 35%.
- Built interactive 3D WebGL interfaces with Three.js shaders, achieving a solid 60 FPS experience on modern web clients.

EDUCATION & CERTIFICATIONS

Bachelor of Science in Computer Science / Information Technology | Addis Ababa, Ethiopia

- Focus on Software Engineering, Data Structures & Algorithms, Distributed Systems, and Database Management Systems.

Certifications: ASP.NET Core Architecture, Angular Advanced Patterns, Modern TypeScript Specialist
